

*CONTINUATION OF MINUTES*

**IRISH WATERSKI FEDERATION**

**ADVANCE HOUSE**

APRIL 23rd 1995

**INTERCLUB COMPETITION**

Baronscourt WSC may not be able to hold this competition on the agreed date - as some Club members may be travelling to the World's at this time. It was agreed that this be left with the Club at this time until they put forward an alternative. No formal request has been received and the original date may still stand.

**CELTIC CHALLENGE**

The date on the NEWSLETTER for this event is not correct - the event was moved to the first weekend in August.

Tim Scott, on behalf of Lough Aghery WSC, asked for a subsidy of £ 400 towards the cost of running this event as no Entry Fees were chargeable and Tim's understanding was as this is a Federation event, funding should come from the IWSF. The understanding of the Federation is that host Clubs have in the past funded this themselves. When the Budget for 1995 was discussed and agreed by all at Federation level, no request was made for any such subsidy. As Tim said that Lough Aghery could not proceed without the £400 being agreed now, it was decided to offer the Celtic Challenge to the other Clubs and make a final decision on how to proceed at the next Federation meeting, pending the response.

**FEDERATION COMPUTER**

Equipment Officer, Harry Bridges, confirmed that tests proved that the IWSF Laptop Computer is not repairable. The intermittent fault cannot be corrected. He will examine the replacement alternatives and a replacement decision will be made at the next IWSF Meeting

**FEDERATION TIMING SYSTEM**

The Gruber System works well when left in one location. When handled by many, it is not reliable. It will be offered for sale by the Equipment Officer, Harry Bridges, as soon as possible. The new ACCUSKI System was used successfully at the PADDY Classic and European Disabled Championships last year and is available at approx. \$ 1000 US. This is also used on the Pro Tour in the USA. A decision on what to do to replace the Gruber System will be made at the next IWSF Meeting.

## EQUIPMENT REGISTER

As the old Register has been mislaid, a new one will be created by Harry Bridges for this season.

## ITEMS FOR THE MAY 28th MEETING AGENDA

Rules  
Budgets  
Project Reviews  
Teams for 1995  
Officials for 1995
